

Tips und Tricks

How do I get more e-mail addresses in a simple way?

Each coach, staff and player (also siblings) **must have** their **own e-mail address** for their My Ice Hockey account.

If **more than one child** has a My Ice Hockey account, we have the **following 2 solutions**:

Solution 1)

You can open an own e-mail address for the (second) child at a free e-mail service.

Examples for providers of a free e-mail address are:

- [GMX](#)
- [Gmail](#)
- [Yahoo](#)
- [Outlook](#)
- [mail.de](#)

This new e-mail address can be **forwarded directly to the main e-mail address**. This way, all e-mails will go to the mailbox of the main e-mail address.

However, the **new e-mail address** must be **used to log in**.

How do I get more e-mail addresses in a simple way?

Solution 2)

If you already **own a Gmail address**, you can **add a dot** somewhere in front of the @. You also "own" all versions of your address that contain a dot.

Example:

meier@gmail.com (original e-mail address)

mei.er@gmail.com (Alternative e-mail address 1)

m.eier@gmail.com (Alternative e-mail address 2)

m.e.i.e.r@gmail.com (Alternative e-mail address 3)

You can use this alternative e-mail address **for your (second) child**. All e-mails will be sent to the **same mailbox**.

The **alternate e-mail address** must be **used to log in**.
